

Tie Design Styles

Type A - Single colour plain and an under knot badge.

Type B - Single colour with twin stripe pair around an under knot badge.

Type C - All over stripe (single thin) with badge on blade base.

Type D - All over stripe (twin thin) and all over interleaved badge.

Type E - Contrast coloured stripe (wide + pencil highlight) with badge on blade base.

Type F - Contrast coloured stripe (wide + pencil highlight) with under knot badge.

Type G - Shadow weave stripe (weave “HCGS”) with under knot badge.

Type H - Shadow weave stripe (weave “Hallett Cup Golf Society”) with badge on blade base.

Badge positions can be; all over, under knot or at base of blade. Text is also possible at the blade edge with a single badge position at under knot or blade end. Any combination of stripe colour, width, grouping and weave is potentially possible. Consideration must be given to colour combinations between badge and background at the badge mount position, e.g. a predominately blue badge on a blue background could be poorly defined.
